Fears over children's health as rats run wild near play park in Northern Ireland

Ireland | February 07, 2021

Parents of children in Ballykelly have voiced their disgust that a rat infestation has got so bad the rodents have made the local play park unsafe.

Over the past few days children using the facility near Drummond Park have come home with tales of huge rats running alongside where they are playing.

Residents in Drummond Park and Kings Lane have reported numerous sightings of the vermin in broad daylight.
